Good knowledge of Production Monitoring and Control Systems (PMCS), Shutdown System (SDS) and Distributed Control Systems (DCS). Experience in implementation of safety management systems while being competent in emergency response skills and process optimization.

PRODUCTION TECHNICIAN

Possess experience and / or qualified in N/SVQ Hydrocarbon Processing Level 2 or similar qualification level. 3 years experience of hydrocarbon processing system and utilities. Knowledge of ESD F&G and DCS Operation. Good understanding of Permit to Work, Mechanical Isolation Standards and Risk Assessment Proven experience and/or qualified to HNC/HND in instrumentation and/or electronics or recognized equivalent.

MARINE SUPERINTENDENT

Possess Class 1 or 2 F.G Cert of Competency with DCE and minimum 3 years crude or product tanker experience as Chief Officer. Knowledge of offshore FPSO operations, including Production, Process, Utilities, Marine Maintenance and Safety Management is an advantage.

MARINE SUPERVISOR

Possess Class 2 or 3 Certificate of Competency with DCE and minimum 3 years experience on crude oil tankers as Chief Officer. Experienced in the implementation of safety management systems. Understanding of relevant legislative requirements with respect to overall operation of FSO/FPSO's.

MARINE ENGINEER

Posses Marine Engineer Certificate Class 2 with minimum 3 years tanker experience as Marine Engineer. Management experience – 2 years in oil and gas industry or terminal business. Computer literate on MS Office software packages. Additional knowledge of offshore FPSO/FSO operations, including Production, Process, Utilities, Marine, Maintenance and Safety is an added advantage.

MARINE TECHNICIAN

Possess minimum Class 3 Certificate of Competency or equivalent with at least 1-3 years experience as 3rd/2nd officer onboard crude oil tanker. Previous working experience on FSO or FPSO and marine terminal operations will be an advantage.

ELECTRICAL & INSTRUMENT SUPERINTENDENT

Degree in Electrical/Electronic Engineering or equivalent professional oil & gas qualifications and minimum of 10 years of working experience in offshore oil and gas facilities. Extensive experience required in DCS, SCADA, PCS and other Instrument Controls Systems.

ELECTRICAL & INSTRUMENT TECHNICIAN

Minimum AO Chargeman certificate from approved body. Must have electrical/instrument certificate from recognized technical institution. Minimum 5 years experience in offshore oil & gas facilities.

MAINTENANCE SUPERINTENDENT

Diploma/Degree or Class 1 Marine Engineer and experienced in maintenance requirements of offshore production / FPSO facility. Good knowledge of Planned Maintenance system. Ability to plan and execute and maintenance of vessel and topside to ensure compliance to Regulatory and Class requirements.

MAINTENANCE SUPERVISOR

Diploma/Degree in Marine Engineering. Class 1 or 2 Marine Engineer Officer with DCE. Minimum 5 years experience as Chief Engineer or Second Engineer onboard crude oil tankers or previous experience on FSO / FPSO's.

ASSISTANT MAINTENANCE SUPERVISOR

Class 3 or 4 Marine Engineer Certificate of Competency (STCW 95). 1 year experience as Watchkeeping Marine Engineer (steam turbine watch keeping experience preferable). VLCC experience preferred.

MAINTENANCE ENGINEER

Posses a University Degree in Engineering. Minimum 5 years experience in similar position in the Oil & Gas industry Familiar with PTS and API standards. Knowledge in maintaining and troubleshooting rotation equipment.

MAINTENANCE TECHNICIAN

Possess Class 4 Marine Engineer STCW 95 Certificate of Competency
Ability to operate and monitor engine room systems.

TECHNICAL SUPERINTENDENT

Posses Diploma in Marine Engineering and/or Class 1 (Motor/Steam) Certificate of Competency. Knowledge in crude tanker operations. Served in a Superintendant capacity onshore for minimum 2 years. Experience in offshore oil & gas facility operation preferred.

CARGO SUPERVISOR

Possess Class 2 Deck Officer STCW 95 COC plus DCE for Petroleum. Experienced as C/O or 2/O on Crude Oil Tankers is essential. Previous experience on FSO / FPSO's is an advantage.

ENGINE ROOM SUPERVISOR

Possess Class 1 or 2 Marine Engineer STCW 95 Certificate of Competency plus DCE for Petroleum. Experience as C / E with working experience on petroleum or gas tankers. Possess high standard of leadership, supervisory and safety behaviors. Ensure that all aspects of Engine Room operations and maintenance are carried out safely and efficiently.

ASSISTANT ENGINE ROOM SUPERVISOR

Possess Class 3 or 4 Marine Engineer STCW 95 Certificate of Competency. Experience as watchkeeping Marine Engineer and ability to operate and monitor engine room systems.

MEDIC / RADIO OPERATOR

Posses Diploma in Science in Medical and Psychiatric Nursing Certificate of Safety and Health Officer (NIOSH). 5 years in relevant position with Oil & Gas industry experience. MMA Certification – Paramedic Certified Radio Operator is preferred. Registered with MA Board or equivalent.

PROCUREMENT ASSISTANT

Minimum SPM/MCE or SPMV with minimum 2 years experience in procurement and logistics activities. Knowledge in materials, equipment and spare parts specification. Good negotiation and communication skills.

Interested candidates are invited to submit their applications stating personal particulars, qualifications, working experience, present & expected salary and contact numbers together with a recent passport-sized photograph. Please indicate the main project code and the position applied on the top left corner of the envelope and send your application to:-
